

# Let Us Develop Qualified Leads For Your Company

## Exclusive Offer for your Company

### *No upfront costs or monthly fees\*.*

We have developed a business development program for selected companies that includes a fully turnkey campaign that is designed to educate, identify and qualify prospects that fit your customer profile.

With our **Referral Commissions for New Business** program we will create audio and video content and use our distribution channels to educate identified prospects. Depending on the size of the deal, we may decide to contact prospects ourselves through tele-sales, social media or initial meetings.

We need to identify what deal sizes are available, and what the potential compensation looks like.

We will have an initial discovery session to determine if this program is a fit for your organization or if another program is best suited.

*\*Each agreement is different and is assessed case by case*
